Career Profile

Motivated college student with a strong passion for programming and database management. Seeking opportunities to gain experience and apply technical skills in software development, database handling, and tech problem-solving within real-world scenarios. I primarily enjoy working on the backend, focusing on logic, APIs, and database architecture but I also take on fullstack development for small to medium sized projects, bringing ideas to life.

Education

- **University of Mindanao – Davao City**
Bachelor of science in Computer Science
 - **Notre Dame of Kidapawan Colleges - IBED**
Science, Technology, Engineering, and Mathematics
-

Certifications

- IT Specialist – Database Certiport, 2024
 - IT Specialist – HTML & CSS Certiport, 2024
 - IT Specialist – Network Security Certiport, 2025
-

Projects

- **Grade View Portal** – Portal for students to view grades and profile info, includes role-based access for teachers.
 - **Commission Tracker**- Tracks commissions based on card sales, includes reporting and user management.
 - **Chicken Rover** - Arduino robot that mimics random chicken movement using logic and obstacle detection.
 - **Shoppcie** – Ordering system for a computer shop with inventory, cart, and checkout functionality.
 - **CrowDataBase** - Ordering system for a local burger shop, manages customer orders and staff interactions.
-

Technical Skills

- **Programming languages** (Python, Java, JavaScript, C++, Dart, SQL)
 - **Web Development** (HTML, CSS, PHP)
 - **Databases** (MySQL, Firebase, PostgreSQL)
 - **Tools** (Git, Visual Studio, Eclipse, Flutter, Figma, Docker)
 - **Frameworks** (Laravel, Tailwind CSS)
-

Soft Skills

- Efficient and goal-driven
- Verbal and written communication
- Team-oriented and collaborative
- Adaptable and fast learner
